

Home Intermittent Cervical Traction Unit

Now, for the first time: When home **intermittent cervical traction** is indicated, CycleTrac can provide identical in-office treatment at home.

Home treatment can now be offered, as often as needed, for patients that fall into any of the following categories:

- ❖ Chronic headaches (replace high cost drug treatment with low cost non invasive treatment)
- ❖ The in-office unit gives short-term relief
- ❖ Interrupted sleep due to neck related pain
- ❖ Chronic neck pain
- ❖ Muscle Spasms (knots in shoulder girdle)
- ❖ Insurance coverage runs out prior to a full recovery
- ❖ When daily traction therapy is required to avoid surgery

Made in the USA!

Features

- ❖ Easy and quick set up
- ❖ 2 week money back guarantee
- ❖ Portable and lightweight - only 6 lbs.
- ❖ Easily packed for travel

The *CycleTrac* Home Advantage

- ❖ First home **intermittent** cervical traction unit, supported by case studies, to effectively treat certain cervical disc related injuries.
- ❖ Can be an alternative to costly drugs and disc surgery
